

face/belly feathers

tail feathers

body feathers

Poorwill

The **Poorwill** is covered in feathers that give it excellent camouflage against the leaves, twigs and dirt on the forest floor.

Choose a place where you would like to make your Poorwill hide (it could be a place in nature or somewhere in your classroom) and color the feathers to blend in with this place. Then cut out the feathers and the Poorwill outline, and glue the feathers to your Poorwill so that they overlap (the smallest feathers are on its head and belly!)
