Creeks & Ponds

Only color the animals that you think live around creeks and ponds, but make them look as real as you can remember!

American Beaver  Gray Whale  Crayfish

Sea Star  Red-legged Frog  Pocket Gopher

Muskrat  Mallard Duck  Spotted Skate
Some adult **insects** and **amphibians** look and act very different from when they were first born. This process of change is called **metamorphosis**.

*Match the adult animal with its young...*

- **Pacific Tree Frog**
- **Dragonfly**
- **Tiger Salamander**
- **Mosquito**
