Wild Wetlands

There are many different things for animals to eat in a salt marsh. Can you find food for each animal?

*Draw a line from the animal on the top to its food source below.*

- **Mallard Duck**
- **Great Egret**
- **Clapper Rail**
- **Northern Harrier (Marsh Hawk)**
- **Salt Marsh Harvest Mouse**
- **Pickleweed**
- **Duckweed**
- **Harvest Mouse**
- **Sand Crab**
- **Fish**
Wild Wetlands

One of the endangered animals in the salt marsh likes to eat pickleweed. Draw a picture of it and some of the other animals and plants that live in the salt marsh.

Name three (3) reasons wetlands are important and worth saving:

1. ______________________________________

2. ________________________________________

3. ________________________________________

Other reasons: _________________________________________
